

Allow NJ to keep the Do Not Call List strong. The system has worked well - very well. I received a phone call from my 75 year old grandmother. She said she was receiving 10+ telemarketing phone calls per day and despite telling them, 'Remove my number,' the calls continued.

I put her information into the Do Not Call website and her harrassment slowed. It cintinued to slow and now has stopped - she has her peace.

Don't take that away from her.
